

YOUR SAFETY IS OUR MISSION

Demining Vest

Masada Armour EOD Demining Vest

MASADA ARMOUR Demining Vest has been specially designed for deminers and technical personnel who work in humanitarian demining operations. The vest is designed to provide the maximum possible protection against fragments caused by explosions of landmines. The vest provides front, fragmentation protection and it is open at the back providing good ventilation and reduced weight. In addition, there is an option to add a removable groin protector. The vest includes a collar protector which is designed to perfectly fit with different types of protective visors. Our demining vest has been designed to conform with UN International Mine Action Standards (IMAS 10.30)
