

YOUR SAFETY IS OUR MISSION

EOD Bomb Suit 2800

Masada Armour EOD Bomb Suit model 2800

MASADA ARMOUR'S EOD-2800 is a Lightweight Suit designed for Bomb technicians and EOD experts.

The suit is designed to provide the highest protection while maintaining flexibility and good ventilation.

The suit is made of supreme quality materials and manufacturing methods.

The protection coverage can be customized to meet any pre-determined threat analysis.

The armor blended with multiple layers of soft, water-repellent Aramid encapsulated in an impermeable outer cover for additional protection.

Anti-trauma layering is included in the armour packs.

The outer cover of the suit is made from high-strength, flame-retardant fabric with superior UV stabilization.
