

DRONE OPERATOR TACTICAL THIGH RIG

The DRONE OPERATOR TACTICAL THIGH RIG is a specialized, ergonomic platform designed for operational drone users. Engineered for secure, hands-free carry, it features a padded main compartment tailored for DJI AVATA and similar drone systems. The rig includes an internal divider for organized gear layout, ambidextrous design for right- or left-leg use, and reinforced attachment points for belt and thigh strap connection. Ideal for tactical drone deployment, it ensures quick access, protection, and mobility in the field.

FEATURES:

- **Padded Main Compartment** - Provides secure, impact-resistant storage for DJI AVATA and similar drones.
- **Internal Divider System** - Keeps drone components and accessories neatly organized and protected.
- **Ambidextrous Configuration** - Can be worn on either right or left thigh for user preference and mission adaptability.
- **Reinforced Attachment Points** - Sturdy MOLLE-compatible connectors for belt and adjustable thigh strap.
- **Quick-Access Tactical Design** - Ensures rapid deployment and hands-free operation in dynamic field environments.

SPECS:

- **500D Nylon 6/6 Outer Shell** - MIL-SPEC abrasion- and water-resistant fabric.
- **Heavy-Duty Nylon Webbing** - PALS/MOLLE compatible.
- **Elastic Nylon Webbing** - Flexible retention and compression.
- **Shock-Resistant Buckles & Hardware** - MIL-SPEC durable components.
- **Hook & Loop Fasteners** - High-strength, field-tested closures ensuring a secure, adjustable fit.
- **3mm Impact-Absorbing Foam** - Lightweight padding for shock protection and noise reduction.
- **Heavy-Duty Zippers** - Rugged, field-grade access.
- **2D Mesh** - Lightweight, breathable ventilation mesh.
