

PRESS LIGHT OVERT BODY ARMOUR

PRESS LIGHT OVERT BODY ARMOUR

PRESS LIGHT OVERT BODY ARMOUR - Media Protection Vest - Level IIIA

The Masada Armour Light Overt PRESS Body Armour is purpose-built to meet the operational needs of journalists and media professionals working in conflict zones and high-risk environments. Providing NIJ Level IIIA protection to the front and back, it delivers reliable defense against handgun threats while maintaining a lightweight and low-profile structure. Its ergonomic design ensures a close, comfortable fit without restricting movement, allowing full mobility during field operations. Integrated front and back plate pockets enable easy insertion of hard armor plates for upgraded ballistic protection when required. Combining comfort, flexibility, and safety, the PRESS Light Overt Vest is an essential protection solution for professional media personnel in dynamic environments.

Features:

- **NIJ Level IIIA Protection** - Front and back soft armor panels provide certified protection in accordance with NIJ 0101.06 standards.
- **Hard Plate Compatibility** - Front and rear flat pockets allow for quick insertion of hard armor plates for higher ballistic protection.
- **PRESS Identification System** - Includes removable front and rear reflective PRESS badges for instant visibility and recognition in the field.
- **Integrated Utility Pouch** - Fixed front utility pouch for essential equipment, tools, or communication gear.
- **Adjustable Fit Design** - Fully adjustable shoulder straps and cummerbund for secure, ergonomic comfort across various body types.
- **Lightweight & Ergonomic Build** - Streamlined design ensures full mobility and comfort during extended operations.
- **Durable Construction** - Made from high-strength, water-resistant fabric designed for professional field use.

Specifications:

- **600D Polyester, a MIL SPEC abrasion** - and water-resistant fabric ensuring durability in demanding environments.
- **3D Mesh Lining** - Provides a breathable, sweat-wicking comfort system for extended wear.
- **Heavy-Duty Nylon Webbing** - PALS/MOLLE compatible for versatile modular expansion.
- **Loop ID Panels** - Front and back Velcro surfaces allow convenient ID or patch attachment.
- **Hook & Loop Fasteners** - Deliver secure and field-tested closures for reliable performance.
- **Elastic Nylon Webbing** - Offers flexible retention and compression, enhancing adaptability and comfort.
- **Edge Binding & Seam Sealing** - Ensure reinforced anti-fray durability for long-term resilience.
